I think so, too. I will ask them not to share outside the agency until the paper goes to publication.

Thanks!  
Valois

You can share any of the data/draft papers I provided. The upper Cheyenne River paper might be most helpful.

Thanks very much! I don't think I ever got back to you about the other two papers, but they were really helpful. Now that this one of the two is published, is it OK to share it with our Superfund program who is looking at the abandoned mines near Dewey Burdock?

Thanks!  
Valois
